

Hi-efficiency Oxygenation Column

- Excellent resistance to a wide range of chemicals, suitable for use in various environments and oxygenation processes
- With pressure monitoring system and automatic pressure relief solenoid valve, safer and more reliable
- Lightweight and easy to install in oxygenation systems
- Optimize oxygen transfer efficiency, and effectively dissolve oxygen into water upto 36mg/L

Model	Treatment Capacity (m ³ /h)	Product Size (mm)	Flange Diameter	Rated Power (watts)
EHOC-30	30-40	Ø 500*2250	DN80	1100
EHOC-80	50-80	Ø 500*2250	DN100	2200

* FRP material products are available for specific applications

* All products are equipped with a water pump
