Closed Type Rotary Drum Filter

(FRP)

(PP)

- PP or FRP material available, robust design, durable, and easy maintenance。
- Replaceable dual-layer protection SS316L screen for easily rinsing and durable performance
- Detachable nozzles to prevent nozzle clogging
- Dual control of water-level and timing for AUTOMATIC back-washing
- Filtration precision ranges 30-75um

Model (PP)	Treatment Capacity (m^3/h)	Product Size (mm)	Inlet/Outlet Size (mm)	Waste Discharge Size (mm)	Rated Power (watts)
ED-S-PP-10/20B	10/20	1090*748*772	110	63	550
