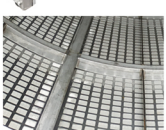
Open Type Rotary Drum Filter



- All stainless steel construction, sturdy and durable, strong corrosion resistance
- Replaceable dual-layer protection SS316L screen for easily rinsing and durable performance
- Detachable nozzles to prevent nozzle clogging
- Dual control of water-level and timing for AUTOMATIC back-washing
- Filtration precision ranges 30-75um

Model	Treatment Capacity (m^3/h)	Product Size (mm)	Waste Discharge Size (mm)	Rated Power (watts)
ED-316L-300B	300	2310*1760*1870	110	2600
ED-316L-500C	500	2910*1760*1870	110	3700

* SS304 material for freshwater aquaculture applications.
